

## OUR LATEST COLLECTIONS

### Never Forget You

**O**ften call the kings of cremation jewelry. We have a huge selection growing monthly. Affordable pricing. Same day Ship. No minimum order. We are proud to server over 632 funeral homes across the US and Canada.

All our jewelry is made of 316L stainless steel. What does that mean? It means it is the same grade as surgical steel and 100% hypoallergenic. It will never turn your neck green and will always look brand new. You don't have to polish like you would for Sterling silver or plated gold.

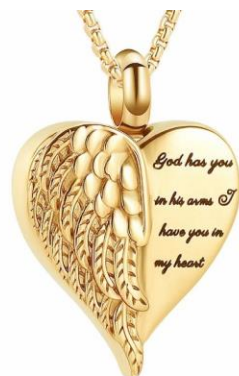

Once you feel one of our pieces in your hand you immediately recognize the weight, quality of our jewelry. The great price does not mean so great quality. The opposite in fact. If you would ever have any issue with our jewelry, just let us know and we will replace immediately.

We are constantly adding to our catalog so be sure to check [PENDANTCATALOG.COM](http://PENDANTCATALOG.COM) for our latest offerings.

To complement our jewelry, we have added items like a snake chain upgrade vs. the standard link chain every pendant comes with. Birthstone charms and initial charms are also a nice upgrade. We offer two types of boxes as well for a great presentation. A high-quality jewelry box and a music box that plays, "You Are My Sunshine."
